HEATSINKS

Over 750 standard profiles; High quality finishes for on show products; heatsink ranges for LEDs, BGA, DIL-IC, PLCC, SMD; Stamped parts; Cost effective custom tooling and product development for specific applications.

THERMAL INTERFACE MATERIALS

Graphite, silicon and PCM types in sheet, reels, tubes and cut to transistor types and customer drawings; single and both-sides adhesive; gap filling GEL films and phase-change materials; thermal transfer compounds and adhesives silicon and graphite based in syringe/mixing syringe.

ENCLOSURES

19" rack-mounting and stand-alone cases and enclosures; standard height 19" rack-mounted enclosures, including both single-piece and multi-part extruded cases; heat-dissipating types, DIN rail mounting, IP rated, sealed, and accessories.

FANS

Axial and radial fans and blowers; 5-24VDC and AC versions; sizes 20x20mm to dia.350mm; speed control and auto-start; bespoke versions including low-noise and long-life; accessories and blade guards.

SWITCHES

High Quality Vandal Resistant switches for harsh environments.
Rocker, Toggle and Slide switches.
Tactile, Momentary and latching actuations.
Micro-switches and Key-lock switches.
SMD - PCB - Panel mount types.
Ring and point illumination, Bicolour - RGB.

IEC CONNECTORS & EMC FILTERS

IEC 60320 Connectors.
Inlets, Outlets, Power Entry Modules, Ganged Outlets and Rewireable Connector / Plugs.
EMC Filtering, Single phase Block Filters, Power Entry modules with Filters.
Medical, Industrial and IT/Telecon applications.

DATA CONNECTORS

High speed data transfer USB Connectors.
USB Cable assemblies.
D-Sub Connectors and Cable assemblies.
Audio Jacks and Sockets, Waterproof Conns.
Board mounted headers - Male and female.
Wire to board connectors.
FPC / FFC Connectors.

DISPLAYS

OLED Displays with Passive matrix or Active matrix – Mono colour – Area colour and Full colour. Sizes 0.49 to 3"inch.
OLED - Transparent Flex Display.
TFT -LCD – LP. Resistive touch panel.

ADDITIONAL PRODUCT LINES

Audio buzzers, piezo, magnetic, microphones and transducers; LEDs – component level SMT and THT; heat-shrink tubing; cable assemblies, including over-moulding; thermistors, Varistors & trimming capacitors; keypads; specialist miniature hinges. Batteries; Li-Ion, LP, LiFePO, NiMH, NiCD, LiSOCl, LiMnO2.

For further information or to speak to one of our technical experts please call +44 (0) 1243 553031 or visit www.dau-components.com to book an online sales or technical meeting.
